

KEEP IT

**MADE IN
AMERICA**

**AND SAVE
OUR
JOBS**

The Whirlpool Corp. plans to start closing its refrigeration plant in Evansville, Indiana on March 26. The refrigerators now manufactured at this plant will be produced in Mexico, eliminating 1,100 local jobs. Meanwhile, Whirlpool—the world’s largest home appliance maker—enjoys healthy profits and has received a \$19 million economic recovery matching grant that should be creating jobs here in America.
